

Gas Distributors for Sustainability:

Enablers of the EU's
decarbonisation and
energy independence

Leading gas distributors leveraging
the grid to deliver clean energy!

Who we are

Ten major European Gas distributors

serving over 35.5 million customers in Europe,
operating 480,000 km of network
and representing 35% of EU gas market

Leading Natural and Renewable Gas Distributors at national level

Key infrastructure for the fast deployment
of biomethane and hydrogen across the EU

Our members

The logo for Alliander, featuring the word "all" in white on a green background and "iander" in green on a red background.

Alliander

operating in The Netherlands

2.5 million end users

41,800 km of network

The logo for Distrigaz Sud Retele, with "DISTRIGAZ SUD" in blue and "RETELE" in smaller blue letters below it.

Distrigaz Sud Retele

operating in Romania

2 million end users

22,000 km of network

The logo for EDATHES, featuring a stylized horse head icon and the text "EDATHES" in blue and yellow, with "GAS DISTRIBUTION COMPANY" in smaller blue letters below.

EDA THESS

operating in Greece

425,000 end users

2,900 km of network

The logo for Enexis Groep, featuring a colorful diamond shape and the text "ENEXIS GROEP" in blue.

Enexis

operating in The Netherlands

2.3 million end users

46,300 km of network

The logo for Floene, featuring the word "FLOENE" in blue and "DISTRIBUTION SERVICE OF FUTURE" in smaller blue letters below.

Floene

operating in Portugal

1.1 million end users

13,700 km of network

The logo for Gas Networks Ireland, featuring a circular icon with radiating lines and the text "Gas Networks Ireland" in blue.

Gas Networks Ireland

operating in Ireland

720,000 end users

12,200 km of network

The logo for GRDF, featuring the letters "GRDF" in blue and "GAS RÉSEAU DISTRIBUTION FRANCE" in smaller blue letters below.

GRDF

operating in France

11 million end users

200,000 km of network

The logo for Italgas, featuring the letters "IG" in blue and "Italgas" in blue below.

Italgas

operating in Italy

7.7 million end users

74,500 km of network

The logo for Nedgia, featuring a stylized orange and yellow icon and the text "nedgia" in blue, with "Grupo Naturgy" in smaller blue letters below.

Nedgia

operating in Spain

5.5 million end users

55,000 km of network

The logo for Stedin Groep, featuring a grid of colored dots and the text "STEDIN GROEP" in blue.

Stedin

operating in The Netherlands

2.3 million end users

28,200 km of network

Our vision

Upscaling biomethane and hydrogen development to accelerate EU's decarbonisation and energy independence.

A highly efficient, innovative and digitalised energy infrastructure as the key enabler of net-zero emissions by 2050.

An integrated energy system to maximise the use of renewable energies and guarantee affordability for all consumers.

**Gas grids are vital assets for Europe
in achieving the ambitions of REPowerEU.**

Our mission

Raise

the voice of gas distributors
in the European debate

Unlock

the potential of renewable
gas and gas grids

Contribute

to the development of a
decentralised and flexible
energy system

Provide

expertise with regards
to decarbonisation policies

Biomethane plant

Hydrogen Storage
